Dear Sir/Madam

My name is Keith Mbofana a undergraduate in Bachelor of Technology in E-commerce at the Harare Institute of Technology currently 4.2, I am young and energetic and very passionate about programming.

I saw an advert on your Facebook account of hiring front end developers and I got interest as I saw this as an opportunity to work with you and advance the purpose of existence of the organization which is to develop software applications for organizations starting from Africa. My experience in full stack development is now three years inclusive of React JS, JavaScript, PHP, Jquery and MYSQL, and with this experience I intend to contribute as much as I can to the shining and success of the organization.

I will greatly appreciate to be considered for this opportunity, I am reachable on +263 779 363 209 and also on email at keithmbofana1@gmail.com

Yours Sincerely
Keith Mbofana
